

# APPRENTICESHIP: WHAT WORKS FOR WOMEN

## Technical Assistance Resources

### WOMEN IN APPRENTICESHIP AND NONTRADITIONAL OCCUPATIONS (WANTO) National Center for Women's Equity in Apprenticeship and Employment

The workplace has changed, women now make up 47% of the workforce and it is no longer uncommon to see women working as police officers, lawyers, doctors and other professions once considered male-dominated. Despite these changes the construction industry continues to lag behind this trend with a workforce that is just 3% female nationwide, a figure that has remained stagnant so for decades. Registered Apprenticeship and industry partners can help change these statistics as well as gain access to a pool of skilled, qualified and diverse applicants. Women want access to high-wage, high-skill careers in the construction sector and industry needs a skilled workforce to meet market demand.

**The National Center for Women's Equity in Apprenticeship and Employment at Chicago Women in Trades (CWIT)** can provide useful suggestions and practical support for how to increase the number of women entering and being retained in registered apprenticeship through our on-line resources and customized technical assistance and training. The website offers support for apprenticeship and industry partners that will lead to improved recruitment, training, retention and advancement of women in registered apprenticeship and the skilled trades. We offer both intensive, customized technical assistance and online resources for registered apprenticeship and other industry stakeholders to:

- Increase the number of women in the nontraditional apprenticeship and employment workforce pipeline
- Prepare skilled, qualified and ready women to meet industry demand
- Achieve updated Equal Employment Opportunity (29 CFR 30) requirements
- Attain recruitment, retention, and advancement goals for women
- Increase leadership development and capacity-building of tradeswomen and tradeswomen networks as resources for local employers and registered apprenticeship

#### WE SERVE:

- Registered Apprenticeship Employers
- Unions
- Job training programs
- Tradeswomen Networks
