

Measurement Worksheet 4

Using the Ruler

Using your own ruler, draw lines that are the length of the measurements provided:

Start here and measure \longrightarrow

$4 \frac{5}{8}'' \quad |$

$6 \frac{9}{16}'' \quad |$

$2 \frac{11}{16}'' \quad |$

$3 \frac{3}{4}'' \quad |$

$\frac{7}{8}'' \quad |$

$4 \frac{5}{16}'' \quad |$

$5 \frac{9}{16}'' \quad |$

$1 \frac{1}{2}'' \quad |$

$2 \frac{1}{8}'' \quad |$

$5 \frac{7}{16}'' \quad |$

Find the perimeter of the shapes below by adding together the lengths of all sides:

P=

P=

P=

P=

Construct a 4-sided figure with sides measuring $1 \frac{3}{16}''$, $\frac{13}{16}''$, $2''$, and $1 \frac{1}{8}''$.
